ALL IN ONE

ARCA SCENARIOS

As ARCA, we always try on delivering solutions that transcend conventional boundaries. Our systems are not just limited to one specific function such as residences or hotel facilities ,conversely, they offer a multitude of applications across diverse sectors.

Stadium Info Station

Hospital Urban Station

One of these examples is the use as Information Station ,Ticket Sale or Merchandise Station at a stadium , an exhibition or a multipurpose venue. Moreover our systems can be installed outside museums ,cinemas and malls. Our capsules are the best choice also for municipal needs and can be act as municipal facilities like info desk , citizens' service station ,school units , guest housing for homeless people and refugge camps .

Besides the previous due to their mobility and dimensions they can be used as urban emergency stations especially for big cities. The lack of space at the center of a city and the waste of time for an emergency situations can be solved with ARCA's Systems . The capsules can be Hospital , Police or even Fire Stations .

The capsules can be used also for tourism and food service activities such as beach bars ,bars ,restaurants ,kiosks ,canteens .
